

## YUN CHOI

021 Corwin, Princeton, NJ • [yun.choi@princeton.edu](mailto:yun.choi@princeton.edu) • 857-498-1282 • [Website](#) • [LinkedIn](#) • [GitHub](#)

### TECHNICAL SKILLS & INTERESTS

---

- **Computer:** Proficient in Python, R, SQL
- **Interests:** Computer Vision, Machine Learning, Causal Inference

### EDUCATION

---

#### Princeton University

*PhD in Political Methodology*

*Graduate Certificate in Statistics and Machine Learning*

- *Relevant Coursework: Frontiers in Deep Learning, Advanced Computer Vision, Machine Learning and Pattern Recognition, Statistical Theory and Methods*

Princeton, NJ

Expected in May 2027

#### Columbia University in the City of New York

*MA in Quantitative Methods in Social Sciences*

*Data for Good Scholar*

New York, NY

Dec 2023

#### Hankuk University of Foreign Studies

*BA in English Interpretation & Translation; Double Major in Journalism*

Seoul, South Korea

Jun 2018

### RELEVANT RESEARCH EXPERIENCE

---

1. POLVIFIDEL: Evaluating and Improving the Political Fidelity of VLM Image Captions
  - Develop a new reference-free metric for evaluating the political fidelity of image captions
  - Propose a prompt-based method to improve the political fidelity in captions without finetuning, using detected objects as auxiliary information
2. Political Object Detection: Domain Knowledge-guided Cluster-then-Label Approach for Political Object Detection in the Wild
  - Propose a framework for analyzing political imagery, integrating task-specific vision models (Grounding-DINO and SAM2) with semi-supervised clustering to identify politically meaningful actors and objects
3. Improving Facial Emotion Recognition of Politicians in News Images through 3D Face Reconstruction
  - Compare SOTA 2D and 3D FER models – EMONET and EMOCA – on real-world political images

### WORK EXPERIENCE

---

Teaching Assistant | **Princeton University**, Princeton, NJ 2025

- Lead weekly lectures for PhD-level Statistics and Machine Learning courses to 15-20 students

Data Journalist | **Yonhap Television Network**, Seoul, South Korea 2021

- Social Network Analysis: Analyzed and created an [interactive explorer](#) for annual changes in the North Korean leader Kim Jong-Un's social network

Data Journalism Fellow | **ABC-Owned Television Stations**, Philadelphia, PA 2020-2021

- Data Reporting: Led and published a nationwide data-driven investigative story in collaboration with ABC investigative journalists across the country ([Driving While Black](#))
- Data Management & Distribution: Built and maintained databases to share with ABC journalists across the country

Investigative Data Journalism Intern | **ABC Boston**, Boston, MA 2019

- Data Reporting: Produced data-driven investigative stories for the investigative unit

### SELECTED AWARDS AND HONORS

---

- 2025 Princeton Data-Driven Social Science Fellowship
- 2025 Princeton Quantitative & Analytical Political Science Fellowship
